

# ENAGIC GLOBAL E-FRIENDS

Vol  
277

Dec.  
2023

## Rajan Manjrekar, India's First 6A7-6, Shares Keys to Success

**The eight-point system of commission in place at Enagic is unique in enabling Distributors the opportunity to make significant levels of revenue. This system is the result of hours of thinking and countless revisions.**

**Enagic products stand out among our competitors as much higher in quality, but if we do not ensure an adequate return to our Distributors, then they will perceive no advantage in being part of our business.**

**Hironari Ohshiro  
Enagic Founder and CEO**

# Message from Mr. Ohshiro

## Make the Most of Spare Time Over Holidays to Prosper in the New Year

December can be a light month for meetings with team members and new prospects due to holiday scheduling challenges. However, that doesn't mean you need to hibernate. Put the extra time to good use by preparing for the new year. Independent Distributors have never had more tools and resources available through their networks and online to increase knowledge, improve performance, and begin 2024 strong. After all, lost time means lost opportunities.

- **WORKING EVERYWHERE:** We now live in a world with increased focus on remote opportunities. Practice and become comfortable with programs like Zoom and Skype so we get the most out of our online meetings. Logging on to connect can happen any time, any place.
- **IDENTIFY NEW OPPORTUNITIES:** New prospects are everywhere. You just have to know where to look. For example, scroll through your contacts and consider who could benefit from becoming an Independent Distributor. Many people in your life could have the skills to make an impact and would be excited to discover the opportunity. Even wearing an Enagic hat or carrying an Enagic water bottle could spark fruitful conversations. Stay resourceful and open to new opportunities.
- **REVIVE PROSPECTS:** Sometimes, old prospects can become great new prospects. Check in with dormant Independent Distributors and past customers who were satisfied with just using and drinking Kangen Water®. These people might be at different points in their lives and ready to benefit from being part-time or full-time Independent Distributors.
- **TRAIN:** Start by training yourself. Become more familiar with Enagic products. Consider the digital tools you use on a regular basis. How well do you know these devices, programs, and apps? Consider possible areas of improvement and commit to getting better. Uplines are often happy to help if they have time. Once you become competent, you should also train other people in your downline so that your team stays strong and focused in 2024 and beyond.
- **PLAN AHEAD:** Strategy is key when it comes to converting sales. Independent Distributors have the freedom to work however and wherever they like, in ways that best fit their lifestyles, but some personal choices will likely yield more efficient results. Step back and form a plan for 2024.
- **FILL YOUR CALENDAR:** Schedule meetings with prospects for 2024 so that you can get a jump on work after the holidays. Making these efforts now will build confidence for 2024 and pay dividends next year and in the future.

Of course, it's important to spend time with family this holiday season, but we can still take brief moments to plant seeds that will grow in 2024. As always, it's also vital to share compassion with the world and drink Kangen Water®. I know I'll be drinking Kangen Water® on New Year's Eve and hope you will as well. Kanpai!

*Hironari Ohshiro*  
Enagic Founder and CEO

# Change Your Life Story

**6A7-6**

**Rajan Manjrekar**

March 12, 2015 is a date that Mumbai native 6A7-6 Rajan Manjrekar may never forget. That day, he visited friend 6A7-5 Samir Potdar's home and drank Kangen Water® for the first time. To say he left impressed with the water would be an understatement. Three days later, he witnessed a demo from 6A2-3 MingWay Sia, who he now calls "my young and charismatic mentor." MingWay eliminated any doubts about becoming an Independent Distributor. As Rajan says, "Driven by the belief in its power, I committed to making it my full-time endeavor that very day."

“Determined, I left my job, purchased the machine, and launched my business in July 2015,” he recalls. “With dedicated teamwork, I achieved 6A7-6 in July 2023, marking India’s first and the world’s fastest 6A7-6, just as I completed my 8th year in business. Enagic wasn’t just a call from my subconscious mind; it transformed my life.”

Rajan previously worked as Head - Business Development and Training at HK TV Products Limited, a Hong Kong-based company. He first started working in direct sales in 1990 and found Kangen Water® to be unique. Three factors differentiate Independent Distribution from his other opportunities and drew his interest.

1. “What intrigued me was the ability to freely offer samples without concern for financial strain. People could experience its benefits before deciding to purchase the machine, a rarity in the direct selling world.
2. “Enagic’s Kangen Water® ionizer stands as the unparalleled Gold Standard in the ionizing industry, with no competition.”
3. “Its high entry cost ensures a higher retention rate, attracting committed individuals and guaranteeing both substantial income and the prestige of the business.”

Rajan’s education and over three decades of direct sales experience have been instrumental in his current role. He credits “Guru Legend: Shri Vinaykumar Pandhe with teaching him the tools to build a top team with “more than 200,000 families of distributors.”. He’s also benefited from finding “hidden diamonds” like the late leader, 6A6-5 Updesh Malik, 6A2-5 Amit Patoliya, and the “Great Shastry Brothers Team.”

Rajan made his first sale to his “closest friend and first 1A,” now 5A Rakesh Fernandes, which set the wheels in motion for a powerful joint effort. “Darshana’s willingness to purchase the machine became the catalyst that led to all of us—myself, Rakesh, 1A Pravin Khairnar, and 1A Darshana Terde—joining forces to make the purchase together.”

Rajan’s team has already reached thousands of people, but they’re just getting started. “Our long-term goal by 2027 is to improve the health of 500,000 families through Kangen Water®,” he says. “We believe achieving this will enable us to generate over 300 -3s, empowering individuals with genuine mental, physical health, and robust financial freedom.” They’re aiming to share True Health with more of the world. He also anticipates being able to create 3-5 new -6s on his team in 2024 and to personally reach a 6A8-7 rank by the end of next year.

Rajan and his downline have developed a detailed plan to accomplish these goals. “We’re hosting continuous training camps and events across various platforms,” he explains. “These events are designed to rejuvenate people’s energies, which are sometimes essential in navigating the highs and lows of any business.”

In response to the pandemic, and in an effort to use best practices in the modern world, Rajan and his team have adopted specific ways to communicate, educate, and motivate each other. “We’ve honed our online communication skills using platforms such as Zoom,” Rajan says.

“These skills continue to support our business endeavors, reducing the need for extensive effort and energy. Despite this, my team and I always prioritize meeting in person at both small and large offline events. Undoubtedly, WhatsApp serves as a significant advantage for sharing a multitude of media information among us networkers. However, engaging with your team through phone calls and physical meetings remains the most effective method to connect and uplift team morale.”

Rajan has built a rewarding life and career through Independent Distribution that requires a major commitment. To stay productive, he does devote some key time to self-care. “I usually prioritize exercises that rejuvenate me, providing a sense of freshness,” Rajan says. “Additionally, I indulge in reading books and watching movies on my laptop, particularly during air travel. However, my ultimate preference lies in cherishing moments with my family and friends, a rarity that I deeply value.”

# Singapore Distributor Profile

**Mabelline Goh**

**6A**

6A Mabelline Goh has achieved success as an Independent Distributor after discovering Enagic and Kangen Water® in 2020. Enagic Singapore Branch Manager Kent Liew describes her as “a remarkable individual who has consistently demonstrated exceptional performance in her role.” He goes on to praise her “dedication and hard work,” which have served her well with sales.

She found out about Enagic in 2020 after leaving her corporate job in the hospitality industry, which was physically and mentally draining and required 12-15 hours a day managing a department. Mabelline decided to purchase a Kangen Water® ionizer, Anespa and Ukon as soon as she learned about the benefits of these products. Mabelline started drinking Kangen Water® and committed to becoming an Independent Distributor on that very first day. From a business perspective, she was initially attracted to Enagic’s patented 8-point compensation plan. She adds, “I like the idea of working on my own terms to enjoy the time flexibility.”

Mabelline encountered early adversity. “I faced a lot of rejections when I first started, especially the first three months,” she says. “People were skeptical and found that the products were too expensive.” Eventually she turned the corner, demonstrated value inherent to Enagic products, and built momentum. Juggling family and work wasn’t easy, but Mabelline reached a 6A rank.

Mabelline has found a balanced approach that works for her and benefits teammates. “I focus on helping people now,” she says. “Instead of selling the products, I put more emphasis on the business plan which can help a lot of people, especially mothers like myself who had to leave their corporate career for family commitments to continue building their corporate identities and at the same time, doing all these without having to sacrifice family time.”

Mabelline is proud of all she and her team have accomplished, but her Enagic journey is far from complete. “I am going for 6A2-3 in this Enagic business and am committed to guiding my team to achieve the same,” she says. “Financial independence and time freedom are my long-term goals.”

# USA

## Distributor Profile

**Bob Hilke**

**6A**

**6A Bob Hilke grew up in International Falls, Minnesota, “the icebox of the nation,” and currently lives in Highland, Utah, “a desert area surrounded by the beautiful and majestic Rocky Mountains.” He’s enjoyed an illustrious career in the health and wellness world that still takes up most of his bandwidth, though he’s still been able to accomplish a great deal with his part-time efforts as an Independent Distributor. Since Bob is so passionate about sharing Kangen Water® with the world, he’s now taking steps to devote more time to Independent Distribution.**

In 2008, Bob received a fateful phone call from a good friend, 5A Bob Holker. “He told me about these remarkable alkaline water purification systems that make Kangen Water®,” he recalls. “It took me all of about 5 seconds to realize how powerful of a tool the Kangen Water® ionizers could be.” Bob immediately ordered the SD501 Kangen Water® ionizer for his family.

“All six members of our family LOVED drinking Kangen Water®,” Bob says. “I quickly realized this is a product I can stand behind, and that I could bank my reputation on the quality and results of Enagic. So I was all-in and have been now for the last 15 years.”

Bob graduated from Iowa State University with a degree in Nutritional Sciences. He previously worked for over 30 years for a massive health and wellness company. Bob was also the COO of a nutrition company marketing in the USA and five major international markets. He currently works with a healthcare company.

Bob's health and wellness career has proven valuable. So has his education. Bob says, "My degree in Nutritional Sciences helped me develop an objective and analytical approach which enabled me to quickly identify the potentially significant benefits of drinking Kangen Water®."

Bob has sold hundreds of Kangen Water® machines in the U.S. and abroad, and he's been able to accomplish that with just a part-time commitment. "Because of other priorities I have had very little time for my Enagic business, so it has been coasting along mostly on auto pilot," he says. "However, I'm looking at my Enagic business as being a fun venture for my retirement years."

Bob has been putting the pieces in place to make Independent Distribution a bigger priority. He created a Hilke Enterprises LLC and a DBA called VeryHealthyWater and applied for a trademark. "To kick things off recently, I hosted a booth at the Salt Lake City Fall Home Show and had a fantastic response from many interested people who are looking for a solution to improve their drinking water quality," he says.

Bob utilizes modern technology to streamline communication and boost sales for his team. "I use email and text messaging to stay connected with my customers and distributors," he says. "I also extensively use the Enagic Web System which provides a wealth of information and resources for my prospects, customers, and team members."

Even with a full-time job and Hilke Enterprises LLC, Bob still makes time for rewarding leisure pursuits. "I love to downhill ski in the winter," he says. "During the warmer seasons I love hiking and mountain biking. I play violin and old-time fiddle, and when I have time I enjoy posting music videos to my YouTube channel: [www.youtube.com/FiddlerBobHilke](http://www.youtube.com/FiddlerBobHilke)."

Now that he's become more determined to share Kangen Water®'s benefits, Bob has a clear vision for his future as an Independent Distributor. "My goal is to re-engage more with my Enagic business so I can help many people find a wonderful solution," he says. "Another important goal I have for the next year is to help several of my distributors to 6A."

## Indonesian Leaders Tour Enagic Facilities in Japan

6A5-5 Dr. Andhyka Sedyawan led 32 Indonesian Independent Distributors on an eventful Japanese tour from October 22-28 with stops at Enagic facilities in Okinawa, Osaka and Tokyo. These distributors returned home to Indonesia inspired and ready to thrive. Andhyka exclaims, “October 2023 will be the point of Enagic Indonesia’s revival in the eyes of the world.”

Distinguished distributors who visited Enagic facilities included 6A4-5 Teddy Hendryana, 6A10-4 Triyadi Joko, and 6A4-4 Wikan Handono. “Our grandfathers in this business, namely 6A7-6 Akitoshi Nakamura and 6A2-5 Kyoko Nakamura, were also here to accompany us on this trip,” Andhyka says, calling their participation “an unplanned kindness.”

The Indonesian group began their tour in Okinawa with some leisure activities. They enjoyed Enagic Onsen, a hot spring facility owned by Enagic, and Enagic Bowl Mihama, a bowling alley that's also part of the company's portfolio, before getting down to business.

Andhyka found it impactful to see Enagic Founder and CEO Hironari Ohshiro's hometown. "Visiting Sedake, the home when Mr. Ohshiro was still a little kid, the garden and

the Ukon factory make us even more aware of how extraordinary the good values of this company are," he says. Their Okinawa experience continued with a Mini Convention at E8PA headquarters. Mr. Ohshiro attended the event with his wife Yaeko and their son Hiroki. Outstanding Indonesian distributors received awards and took photos with the Ohshiros.

"Touring the vast Enagic golf course in Okinawa is an exciting experience for those of us who are coming to Okinawa for the first time," Andhyka says. "And of course, walking in 6A2-3 Square where there are honorary trees with the names of distributors 6A2-3 and above is an inspiration for us to be more serious about running this business."

The group's Osaka itinerary included a factory tour. "Visiting the Enagic Factory added to our confidence that this Kangen Water machine product is a product with very high production quality," Andhyka says. "It is natural that this product can be accepted throughout the world."

The group's final stop in Tokyo included a visit to the Enagic Tokyo branch office. "We also held a training session in the meeting room to wrap up all the positive energy we got during the trip," Andhyka says.

He's visited Okinawa and Osaka eight times, but the experience never gets old. He says, "This trip gives us millions of volts of vision energy for us to fight, work even harder in this business." Andhyka and his team feel energized and look forward to returning to Okinawa in June 2024 and seeing everybody at the monumental Enagic 50th Anniversary event.

# KANGEN Water

## Water Profile

pH  
8.0 - 9.5

Most Enagic Water machines produce five types of filtered, ionized alkaline and acidic waters through electrolysis:

**Strong Acidic Water: pH 2.7**

**Beauty Water pH 4.0 - 6.0**

**Clean Water pH 7.0**

**Strong Kangen Water: pH 11.0**

This month, we profile hydrogen-rich Kangen Water, which is ideal for hydration. Kangen Water also has many kitchen applications and it is beneficial to the environment because it is not sold in plastic water bottles.

### Drinking

Drink Kangen Water throughout the day. Unlike tap water, Kangen Water has no unpleasant odor, tastes lighter, and, according to many consumers, has a sweeter flavor.

### Food Preparation

Rinse fruits, vegetables and fish to remove pesticides and delay oxidation. Enhance flavors of tomatoes, broccoli, onions and more by parboiling in Kangen Water.

### Coffee & Tea

Enjoy the wonderful color, taste, and aroma of coffee or tea prepared with Kangen Water. You can also use less coffee or tea and still achieve robust taste thanks to the water's high extraction ability.

### Soups & Stews

Kangen Water draws out the flavor of ingredients and helps make them tender and juicy. Therefore, food doesn't need as much seasoning or salt.

### Plants

Kangen Water may help to reinvigorate plants. The water also stimulates germination and improves seedling development.

## Enagic Turkey Office Opens in Istanbul

Enagic Turkey celebrated the opening of a small branch office on November 25 in Istanbul. Branch Manager Erhan Özcan welcomed approximately 70 people to the event. This office sells accessories and supplies. In the future, they plan to import Kangen Water® ionizers as well. In the meantime and moving forward, staff members can deep clean and service Kangen Water® machines.
