**Romi Verdera Reaches 6A12-8 Rank And
Aims to “Double, Triple or Quadruple”
The Size of His Global Team**

Message from Mr. Ohshiro

We Built Enagic To Last on a Strong Base

When you build something with a strong base, it will last. When I founded Enagic 52 years ago, I surrounded myself with people who amplified and elevated my vision for the company.

When we started selling Kangen Water® ionizers, Independent Distributors developed creative ways to capitalize on my patented 8-point compensation plan when selling our products to family, friends, neighbors, and the world. We all learned from each other and became smarter and more resilient. This allowed Enagic to weather market stresses and sudden downturns and reach people worldwide. In less capable hands, our entire business could have easily collapsed.

When I think about longevity, distributors like 6A12-8 Romi Verdera come to mind. Romi registered as a distributor in February 2006 and is still building his global team more than 20 years later. He's a leader who's set quite an example for his team and for distributors worldwide.

The Enagic journey has never been easy, but I built a life and business that I love. Distributors like Romi have done the same for themselves, for their families, and for their teams. I want the same for my extended Enagic family. You have all been vital for our collective success and continue to strengthen our mission to share Kangen Water® and True Health with the world.

I turn 85 years old this month. Drinking Kangen Water®, consuming Ukon and showering with the invigorating Anespa helps me to feel young and focused. Seeing distributors succeed by supporting each other also keeps me energized. I still get inspired by meeting people and hearing distributors share stories about the different ways they connect with the company.

Thanks again for your hard work and dedication. Our success is only possible together. Remember to drink Kangen Water®, which I enjoy even more than birthday cake.

Hironari Ohshiro
Enagic Founder and CEO

6A12-8
Romi Verdera

Change Your Life Story

Romi Verdera last appeared in E-Friends in April 2022 and has risen to an impressive 6A12-8 rank. This makes the Florida resident one of the top performing Independent Distributors ever. Since a rising tide lifts all ships, his team and family have also made the most of the opportunity.

In 2006, Romi's friend 6A9-6 Jayvee Pacifico showed him Kangen Water® and invited him to attend a presentation from Enagic Founder and CEO Hironari Ohshiro in Los Angeles. "I saw the big picture," Romi says. "I also spoke to some distributors who were there and told me their success stories. At the time, my real estate business fell apart and I was looking for something to do."

When he returned home to New York, Romi bought a LeveLuk DXII water ionizer and officially registered as an Independent Distributor on February 3, 2006. "I believed in the benefits of Kangen Water® and I liked the business opportunity," Romi says. He earned a 6A rank in only 3 months. "As the business grew, my vision, dreams and hopes kept on getting bigger and bigger," Romi says. He continues his 20-year Enagic journey, which Romi calls "the best years of my life." His family was inspired to join him.

“I like the fact that I can build a business that can be passed on to my family and the next generation,” Romi says. Passing the torch is already in progress. Not only is his wife, 6A3 Rosavilla, a successful Independent Distributor. So are their sons: 6A Jeremy and 6A2-2 Jason.

a machine, but Romi left water behind to enjoy. A few days later, she called Romi with a positive review and placed her order.

Looking back, it didn't take long for Romi to build momentum as an Independent Distributor. “I was fortunate to have clients whom I knew in life,” Romi says. He sold his first Kangen Water® ionizer to an elderly woman in New York. She did not purchase

“In the beginning, if I left water for people and they tried it, they'd call me back,” he says. “I kept on doing that. As people bought the machine, I encouraged them to talk to their friends. Let's have a meeting and do a group presentation at their house. That's how it was built. The first 90 days got me to 6A. My customers were inviting friends and I was doing demos in their houses.”

Romi and his wife are from the Philippines. They previously lived in New York City, where he worked on Wall Street. His education in Marketing and Business also helped him to “understand the business environment.” So did his experiences in the real estate and insurance industries and with other network marketing companies. He studied how to cultivate prospects, lead presentations, close sales, and be a leader. Romi says, “I got a lot of training on organizational building, business building, inspiring people, motivating people, and training people.”

Romi's Enagic journey has repeatedly taken him across the world over the past 20 years. Of course, he does more than just hop on flights to make and build connections while inspiring people. “I do a lot of Zoom webinars, which leaders of my team organize,” he says. “I show up to communicate the vision and strategies we implement to build the business.”

Romi explains his approach to training his downline. “I share how I got started,” he says. “Then they have to learn the basics of the business, which is actually prospecting, doing demos, explaining Enagic's patented 8-point compensation plan, motivating them, and connecting them to the different tools available on the internet.” Rising team ranks prove this method is working.

Romi and his team have already accomplished so much. He's made 3,438 sales, but remains convinced that more is possible. "I believe I can double, triple or quadruple the size of my sales organization worldwide because of the recent revolution in marketing with the use of AI tools that enhances our ability to reach more and more people around the world," he says.

As always, Romi maintains a team-oriented leadership style. "I've been talking to my downlines, especially my downlines in Canada, 6A2-6 Dante and Glenda Calinisan, who helped me move up to -7. I'm helping them go to -7 and all the downlines are also moving up in ranks."

***With hard work, some of the most dedicated independent distributors may be able to earn supplemental income (see the earnings disclosure statement on www.enagic.com for details).**

6A2-4 Ashley Krooks

6A2-8 Romi Verdera has made a major impact on the worldwide Enagic community. His downline includes other top leaders who have shared Kangen Water® with thousands of people across the globe. Here are just four standout Independent Distributors who learned valuable lessons from Romi and continue to thrive.

KANGEN Water

Water Profile

pH
8.0 - 9.5

Most Enagic Water machines produce five types of filtered, ionized alkaline and acidic waters through electrolysis:

**Strong Acidic
Water: pH 2.7**

**Beauty Water
pH 4.0 - 6.0**

**Clean Water
pH 7.0**

**Strong Kangen
Water: pH 11.0**

This month, we profile hydrogen-rich Kangen Water, which is ideal for hydration. Kangen Water also has many kitchen applications and it is beneficial to the environment because it is not sold in plastic water bottles.

Drinking

Drink Kangen Water throughout the day. Unlike tap water, Kangen Water has no unpleasant odor, tastes lighter, and, according to many consumers, has a sweeter flavor.

Food Preparation

Rinse fruits, vegetables and fish to remove pesticides and delay oxidation. Enhance flavors of tomatoes, broccoli, onions and more by parboiling in Kangen Water.

Coffee & Tea

Enjoy the wonderful color, taste, and aroma of coffee or tea prepared with Kangen Water. You can also use less coffee or tea and still achieve robust taste thanks to the water's high extraction ability.

Soups & Stews

Kangen Water draws out the flavor of ingredients and helps make them tender and juicy. Therefore, food doesn't need as much seasoning or salt.

Plants

Kangen Water may help to reinvigorate plants. The water also stimulates germination and improves seedling development.

Stories of Success

Let's Unify Like the Parts of a Ring

"You could describe the relationship between Ohshiro and Yaeko as the relationship between diamond and gold. Together, diamond and gold make a single ring. The highlight of any wedding ceremony is when the bride and groom exchange rings as symbols of their becoming joined together as one; the groom pushing the ring gently onto the bride's finger, the bride doing the same for the groom. Today, these rings are expensively made and set with diamonds. But in the past, rings were simple twists of wire with the slightest of decoration. Surely there can have been few wedding ceremonies in which rings were not exchanged.

It's easy not to notice, but the glittering diamond is supported by a base of gold. Gold is beautiful, does not rust, feels luxurious. And it has just the right amount of luster to perfectly complement the brilliance of diamond. The Ohshiros are a couple in tandem, a partnership, and it is Yaeko who takes on the role of the golden band, the base of the ring. Without this base, the ring will not work as a ring, no matter how opulent its jewels. Without this base, the ring is not a ring. If the base is not sturdy, the diamond will wobble; who knows when or where it might fall. The diamond can sit safely only when the gold setting grips it firmly. Only then can it show off its shine. The gold band rests quietly under the diamond, modest about its presence."

"This principle of working together like the parts of a ring applies to the internal workings of a company, too. It is a good way for a boss to work with his or her team. Indeed, from 2013 onwards, the company sales slogan has reflected this perfectly: "Let's Unify".

Above is an excerpt from the book **Quenching the Thirst for Global Success, the Success Story of Hironari Ohshiro**. Toshio M. (2015) It is filled with incredible lessons, motivational stories and the actions that were taken to create Enagic. A must-read for distributors, it is available at

www.enagic.com/shop

Also available in Chinese, Italian, French, Spanish and Japanese!

Okinawa Kangen Foods presents: The World of Vegetable Ukon

Why Turmeric Takes the Central Role in Haldi Ceremonies in the Indian Subcontinent

Ukon (turmeric) holds deep cultural and spiritual significance in the Indian subcontinent. It is considered a symbol of purity and protection and used in Hindu rituals. People offer ukon to the deities during daily prayers and apply it to sacred statues in temples.

People in rural areas use ukon as an essential part of daily life. They also believe that turmeric may have various benefits. Turmeric, called haldi in India, is traditionally said to support digestion, immunity, skin conditions, pain relief, and discomfort during menstruation. It is also regarded as an effective cosmetic for issues such as acne and even used in a traditional practice to ward off evil.

Ukon is considered a “medicine given by the gods” and plays an important role in a traditional and culturally significant pre-wedding ritual, the Turmeric (Haldi) Ceremony.

Haldi paste, made by mixing turmeric with sandalwood water, rosewater, and sometimes yogurt or milk, is important in this ceremony. For the purposes of purification and beautifying the skin, family members, close relatives, and friends apply this paste to the bride and groom’s faces, arms, and legs.

This act is considered a symbol of blessing and purification. Beyond simply preparing the couple physically for the wedding, turmeric also serves to strengthen family bonds and celebrate shared cultural traditions.

The Turmeric (Haldi) Ceremony is not limited to Hinduism; it is practiced in various regions and communities around the world where people of Indian heritage live.

Last July, Mukesh Ambani—chairman of Reliance Industries, India’s largest conglomerate—made headlines by hosting what was widely regarded as the most extravagant and grand-scale Turmeric (Haldi) Ceremony ever held.

[From the Ukon (Turmeric) Factory Newsletter]

The company brochure for Okinawa Kangen Foods (in both Japanese and English), as well as the digital company brochure (English version), have all been updated. In addition, the official website has also been renewed.

We have also launched Instagram accounts for both Okinawa Kangen Foods and Kangen Kitchen. You can easily access them using the QR codes, so please follow us to check out the latest updates (see QR codes below).

Kangen Kitchen is a mobile kitchen truck that Okinawa Kangen Foods operates. Its location changes daily. If the truck comes to your area, please stop by.

All Kangen Kitchen menu items use ukon. We also serve Wagyu hamburgers made with cattle raised on the Kangen Farm. Our special ukon buns, known for their soft texture, gentle sweetness, and moist finish, have been very well-received.

We also offer outstanding “Turmeric Rice Taco Rice” made with generous Wagyu portions. Of course, our ukon curry is also highly recommended. Pair with either turmeric rice or naan to match your preference. Many customers have been surprised, saying, “I didn’t know ukon could taste this good!” We’re confident you’ll fall in love with its charm the moment you try it.

Please enjoy our carefully crafted ukon dishes!
