***Breaking Barriers: Cameroon Native
Pamela Kinga is the First Distributor
from Africa to Achieve 6A2-3***

A close-up photograph of several pink tulips with water droplets on their petals, set against a soft, light green background. The tulips are in various stages of bloom, with some fully open and others as buds. The water droplets are scattered across the petals, adding a fresh and vibrant feel to the image.

**“ARISE with the vigor and
passion of knowing that
YOU are the crucible of
CHANGE in people’s lives!”**

**Hironari Ohshiro
Enagic Founder and CEO**

Message from Mr. Ohshiro

Enagic is a 24/7 Business

One of the biggest benefits to being an Independent Distributor is the ability to set your own schedule. Sharing Kangen Water®, Ukon and Anespa is a 24/7 business. That gives you a key advantage over other entrepreneurial opportunities when attempting to meet and connect with prospects who currently have more standard workdays. Anything is possible with time flexibility.

Working around other people's schedules is a great benefit. So is accommodating your own schedule. Many Independent Distributors focus on selling Enagic products full-time, while others continue with their existing careers and pay attention to Independent Distribution in their spare time. Both paths can lead to success. Find the route that works best for you. After all, more time doesn't necessarily equate to greater success. It's the ability to be efficient with available time.

Here are just some of the windows of opportunity that Independent Distributors have to be productive and make a difference that aren't limited to traditional times.

- Set Saturday and Sunday meetings and calls, depending on which weekend day fits best with your cultural practices and the practices of your prospects.
- Get a jump on opportunities with early morning meetings. After all, your prospects may be available before work or could be located in different time zones or across the world. Beating the morning rush is also a good time to write emails and schedule correspondence.
- Organize nighttime meetings. After enjoying dinner or putting kids to bed, carve out downtime that you'd otherwise devote to reading, scrolling social media or watching TV.

Capitalizing on opportunities like these will help to set a new standard in 2023. So will drinking Kangen Water®. There's never a better time to do both.

Hironari Ohshiro
Enagic Founder and CEO

**6A2-3
Pamela
Kinga**

Change Your Life Story

6A2-3 Pamela Kinga and husband Richard will be forever thankful to 6A2-5 Darren Ewert and Mike Dreher, who she calls “amazing heroes” for introducing them to Kangen Water®. “Enagic has changed our lives in countless ways and saying we are grateful is an understatement,” she says.

Pamela previously earned an undergraduate degree in Insurance and Risk Management in Canada and obtained a Master’s Degree in Law before joining the insurance world. She worked as a Chartered Insurance Professional (CIP®) for one of Canada’s top commercial insurance companies before fully committing to Independent Distribution. Enagic’s product quality and the myriad benefits, including Enagic’s patented 8-point compensation plan, proved convincing.

Pamela was born and raised in Cameroon and immigrated with her family to Vancouver, Canada, in 2016. Her promotion in December 2022 marks the first time an Independent Distributor from Africa reached the 6A2-3 rank.

Pamela's transition from the insurance industry to being an Independent Distributor proved seamless. She says, "My job as an insurance professional was essentially helping people, most especially when everything is going wrong, putting a smile on their faces and ensuring they are happy again. I responded to people's needs and demands every day. My interactions with people on a daily basis in my career blended so well when I started my Enagic business."

Pamela made her first sale to 6A Rhoda Nduaguibe, a person who responded to Pamela's "attraction marketing" efforts and purchased a Leveluk JR11 water ionizer. Since then, she's developed a process that's worked well for her and her team, which includes three components.

- 1) "I continue putting myself out there as a leader, educating people on the importance of owning their own businesses and helping others to do the same."
- 2) "I continuously strategize on creating impactful onboarding processes to provide my new distributors with the support they need to grow their businesses efficiently."
- 3) "My downlines are global. I have monthly Zoom training sessions with them. They also have access to me via phone and email."

“If ever anyone was born to be an entrepreneur, it is Pamela,” Mike says. “She has this incredible drive and certainty that serves to inspire and motivate everyone around her. It doesn’t matter who you are, when you leave a meeting with Pamela, you WILL be fired up! What really makes Pamela so special though, is her passion for helping people. She loves using this business to change lives - and when you see her introducing it to people or mentoring people she literally lights up. It is beautiful to see!”

Pamela’s future looks bright. “My desire is to continuously spread the Enagic opportunity with the world at large,” she says. “I look forward to attending the highest rank (6A2-7) someday by the grace of God. I have always prayed and hoped for a time when this opportunity could be extended to Africa and I am so excited it’s happening.” She’s referring to an upcoming Enagic Nigeria office, which she views as a big business opportunity and “a great turnaround for Africa.”

“Pamela has never wavered on whether she should be in this business,” Mike says. “Pamela has never doubted her abilities or what was possible. Pamela has never questioned whether this is an amazing opportunity for everyone. AND Pamela has never turned anyone away who needed help - whether they are in her downline or not. Simply put, Pamela is a powerhouse.”

India Distributor Profile

Kodakandla Koushik Reddy 6A2

6A2 Kodakandla Koushik Reddy was born and raised in Hanamkonda, a mid-sized city in India's Telangana state. Before becoming an Independent Distributor, he was an undergraduate college student studying science at Chaitanya (Deemed to be University) in Telangana. He learned about Enagic and Kangen Water® through 6A3-3 Sathyam Kondamu and was quickly inspired.

Koushik was initially impressed with Enagic's 8-point compensation plan and Kangen Water®'s potential benefits to society. "Basically I'm not interested in doing a job," he says, seeing Independent Distribution as something far bigger, "a good opportunity for the young generation."

Given his focus on science, Koushik "understood the total process of machine ionization and the technical side." He has the ability to explain Kangen Water® machines on many levels, which has proven valuable in his efforts as an Independent Distributor. Koushik made his first sales to 6A K Saiteja (a classmate) and 6A Ch Ravinder (a neighbor) and continues to grow his business.

Koushik's short-term goal is to earn a 6A2-3 rank by the end of 2023, but that's just the beginning. "My final goal is 6A2-6," he says. "I will generate 100 6As within 3 years."

To make these dreams a reality, Koushik is constantly connecting with people in his downline, especially 3A, 4A, and 5A leaders "Everyday I'm conducting hall demonstrations and continuing educational trainings to my team with support from my mentor, 6A3-3 Sathyam Kondamu."

India Distributor Profile

Prof. Bandenawaz Ramadurga

6A2

6A2 Prof. Bandenawaz Ramadurga took a circuitous path to Bangalore, where he's lived since 2015. His father was a Government School Headmaster, so Bandenawaz lived in different Indian villages where his father worked, including Bijapur and Bagalkot districts in India's southern Karnataka state, before attending Sainik School in Bijapur and studying in Belgaum.

Bandenawaz is an accomplished scientist and educator who presently works in Bangalore as the Dean of a prestigious pharmacy institution, where he teaches Pharmacology and Toxicology. He's worked for many universities in India and abroad. In 2015, while based in the U.K., a colleague invited him to attend a seminar with other professors and scientists. This was the first time he heard about Enagic and Kangen Water®.

“I was very much impressed with the concept of Ionized water,” he recalls. “I did not buy the machine immediately, but I started reading about it. I collected a lot of clinical studies and research articles published in journals on electrolyzed-reduced water.” A 2016 trip to Bangalore coincided with an Enagic launch event, and he was invited. Bandenawaz met Enagic Founder and CEO Hironari Ohshiro and soon returned to Enagic India’s office to meet with two managers who finally convinced him to purchase a Kangen Water® ionizer for his mother. After seeing how happy she was with the product, he bought a SD501 Kangen Water® ionizer for himself.

Bandenawaz visited India once every six months and started sharing Kangen Water® each trip. “I felt, good things shouldn’t stop at you,” he says. “It should be passed, spread and promoted.” This informed his decision to become an Independent Distributor. Enagic also passed his thorough background check. “I had a checklist of 5Ps: People, Philosophy, Product, Plan and Positioning,” he explains. “I was satisfied with my research.”

Having a background in Health Sciences helps Bandenawaz to explain Kangen Water®’s potential benefits to prospects. He’s also a Certified Corporate Trainer who graduated from IATD (Indian Academy of Training and Development), which makes a big difference. “Teaching and training comes with ease as I have been doing for two decades now,” he explains. “Effective communication is my asset, and it has helped me to influence people on a larger scale.” He now applies these powerful tools to a subject he’s passionate about: Kangen Water®.

Bandenawaz has worked with team leaders to create a robust calendar filled with Team Building Workshops, Trainings, Seminars and Business Development Education programs. “We have named our team as TKU - Team Kangen University - because so many teachers, professors, doctors, engineers, scientists, health professionals, Agriculture Department professionals and paramedics are working with us,” he says. “Learning is continuous and helps us to reinvent and transform so many lives. It’s not a machine selling for us, but a mission.” Bandenawaz calls their approach “L-Earnings,” the result of “training, retraining, and following business ethics.”

Bandenawaz identified four core team members who have demonstrated leadership abilities and are particularly proactive: oncologist Dr. Suresh Ullagaddi (soon 5A), engineer Shivanand Hugar (soon 4A), Raju Mattikopp (soon 3A) and dentist Dr. Mamata Kabade (soon 5A). His team primarily operates in Karnataka, though they’ve made sales in other states and countries.

He’s even included his parents in what’s become a family business. His mother, Jainula Arab Ramadurga, is currently 6A, and his father, Raje Saheb Ramadurga, has reached a 3A rank.

“We guide our team to do the right recruitment so that development of new distributors will be easier,” Bandenawaz says. To ensure users are satisfied, his downline participates in comprehensive training. “Every team goes through a few Team Building Stages: Forming, Storming, Norming and Performing,” he says. “Our motto is to support the distributors and the team leader during the tough times,” adding, “We want to grow organically, yet with continuous enthusiasm.”

Cultivating a strong team requires constant communication, and even with all his responsibilities, Bandenawaz is up to the task. He explains the different types of outreach.

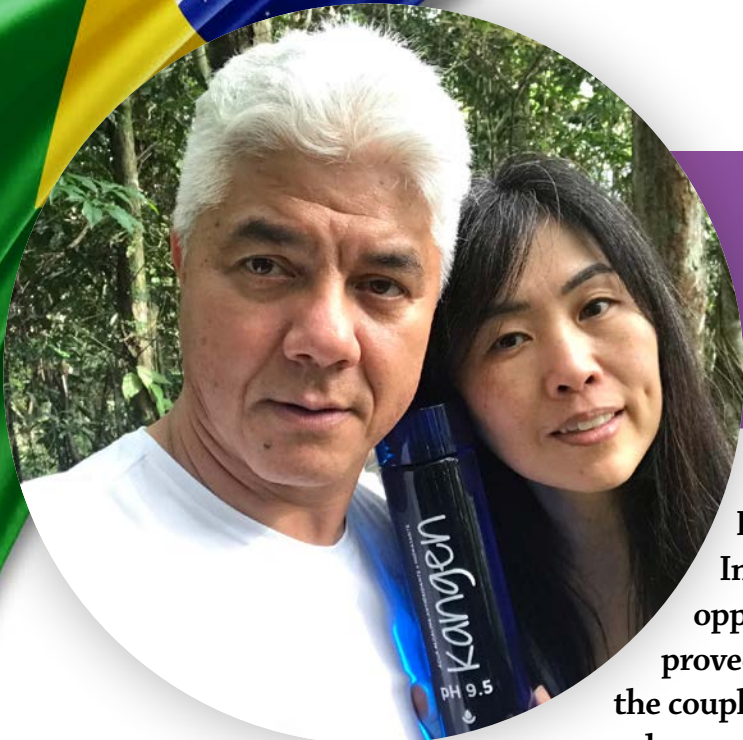

- “I speak to all my core leaders almost every day over the phone.”
- “We meet once or twice a month either over a Meeting, Training or Mega Seminar Event. I motivate them by participating in their needs, dreams and goals.”
- “I teach new skills on presentation, closing, follow-ups and team building.”
- “I share all the Enagic training program schedules of product training, maintenance, and business processes conducted by Enagic India. I encourage everyone to participate.”
- “We have our Team WhatsApp groups where every possible information is shared regarding Enagic Kangen business and also educate them with the latest information and achievements of our team and Enagic company.”
- “We share Inspirational motivating quotes, and videos every day and also on business developing activities.”
- “Conformity is the biggest challenge in team building so we have designed Distributor Orientation & Alignment Training, Zoom meetings and Advanced Training. Leading from the front is the mantra.”

Somehow, Bandenawaz still finds some time to relax. He enjoys reading books about philosophy, team, science skill building, sales and persuasion, along with Harvard Business Review publications. He likes watching movies and documentaries, playing and watching cricket, socializing, traveling to new places, and taking long walks. Bandenawaz also considers music a passion and even produced a Hindi music album and accompanying video where he sings and acts, which is called “Uff Teri Nazar,” available on YouTube under the name Bandenawaz. It’s clear that Prof. Bandenawaz Ramadurga is a true Renaissance man.

Brazil Distributor Profile

Claudio Kiyomi Sakanaka & Midori Sakanaka 6A2-2

Two factors initially appealed to 6A2-2 Claudio Kiyomi Sakanaka & Midori Sakanaka about becoming Independent Distributors: “wonderful product and the opportunity to help many people.” That one-two punch proved impossible to resist when a mutual friend introduced the couple to 6A4-2 Daijiro Sakita, who shared Kangen Water® and an exciting opportunity.

Claudio previously worked in the health field, operating an insurance company franchise. That experience laid the groundwork for success as an Independent Distributor. Claudio says, “I had many contacts from the last company that I worked,” which he and Midori leveraged for sales.

Daijiro presented the first sales opportunity and Claudio converted, selling a LeveLuk SD501 Platinum water ionizer to 5A Carlos Tanaami. He and Midori have built a strong business from there.

Claudio was born in São Paulo and raised in the countryside within Brazil's southern Paraná state, which resides between Paraguay and the Atlantic Ocean. He briefly worked in Japan as a dekasegi (temporary worker) before returning to Brazil to build a career that now centers around Independent Distribution. Claudio finds so much joy "training our distributors every week, showing Enagic's passion" that he considers it a hobby. Still, he and Midori have found other ways to relax: reading books, watching films, going to restaurants and traveling with family.

Claudio's goal is to reach a 6A2-3 rank by June 30, 2023. Inspired by Independent Distributor expansion efforts they've witnessed, he and Midori plan on "forming a large Kangen organization throughout Brazil, with partnerships and training new distributors."

UAE Distributor Profile

Dushyant Dadhaniya

6A

In December 2020, 6A2-2 Manish Sutariya and 5A Pradip Yadav visited Dubai for an Enagic trip. They introduced school friend 6A Dushyant Dadhaniya to Kangen Water® and explained Enagic's patented 8-point compensation plan, which Dushyant recognized as a "huge business opportunity." The next day, they visited Enagic Dubai's office together and Dushyant purchased a K8 water ionizer. Over the first six months, he appreciated "the company, product and unique business method" and decided to become an Independent Distributor for three reasons.

1. "Along with health it can give wealth and most importantly time freedom to me and help others."

2. "Give a chance to be reunited with all my school, college, family and office friends with this good cause of True Health (health, wealth and happiness)."

3. "My wife (5A Mona Dushyant Dadhaniya) and I can both work together."

Dushyant grew up in Gujarat, India. He earned an information Technology degree from the University of Mumbai before becoming an IT engineer. Dushyant has been a successful SAP (Systems Applications and Products) consultant and Techno-Functional Solution Architect.

“For the past 10 years I have lived in my own house in Dubai Marina with my beautiful family. Still I was missing something,” Dushyant says. “I would be selfish not to introduce this amazing product to others which benefited me. I am not working for just money, but to help others.”

Dushyant’s first sale was to his father, Dr. J.N. Dadhaniya, a retired doctor. “I cannot keep him away from this amazing product,” Dushyant says. “My father was convinced with this product and started helping me in business and now whenever I go to any city or country my father sets up meetings in advance for me.”

Dushyant’s past experience has helped him immensely. “Being an IT professional, I worked in top multinational corporations around the world,” he says. “I know how to use technology for micro-level planning and execution in Enagic business which helps me optimize contact list, demo, plan and follow-up. I am able to do even 10 separate demos in a day with this planning.”
